KNOWN GOOD CERTIFICATE

KG-SAMPLE-0001

Verify at knowngoodcompute.com/verify/KG-SAMPLE-0001/

Sample certificate. Example values only. It does not describe a real unit.

NVIDIA H100 PCIe 80GB (sample values)

Part number	SAMPLE-PN-0000	Serial	SAMPLE00000001234
Test date	2026-11-04	Soak duration	24 hours
Tester	Christian Busch	Location	Milpitas, California
Result	**Pass**	Signatory	Christian Busch

TESTS

Test	Tool	Result	Detail
Identity and labels	`nvidia-smi -q`	Pass	Model, part number and serial match board labels (example)
Visual inspection	`Photos, 12 views`	Pass	No damage or rework found (example)
Firmware and VBIOS	`nvidia-smi -q`	Recorded	VBIOS 00.00.00.00.00, ECC enabled (example)
DCGM diagnostics	`dcgmi diag -r 3`	Pass	All plugins passed (example)
Memory test	`dcgmi diag memtest`	Pass	0 retired pages, 0 remapped rows (example)
NVLink bandwidth	`nccl-tests all_reduce_perf`	Not run	No NVLink bridge fitted in the test host (example)
Soak run	`gpu-burn, 24 h, 1 s logging`	Pass	Max 79 C, no thermal or power throttling (example)
Power draw	`nvidia-smi dmon`	Pass	348W peak against 350W rated (example)
Performance baseline	`CUDA GEMM, FP16`	Pass	Within 5 percent of the datasheet figure (example)
OEM warranty lookup	`Manufacturer portal`	Recorded	Out of OEM warranty, checked 2026-11-04 (example)
Provenance	`Seller records`	Recorded	Decommissioned from a production cluster in the US (example)

STATEMENT OF THE SIGNATORY

I ran or supervised the tests listed above on the unit with the serial shown, on the date shown, and the results shown are the results recorded. This certificate records how this unit performed under these tests on that date. It is not a warranty and does not predict future failures.

Christian Busch, signatory

Date

Issued by Known Good, operated by Mulligan Valley Partners, which also operates the dealer Mulligan Valley Compute. The full serial appears only on this PDF. Check its SHA-256 fingerprint against the one on the verification page.
